Microsoft mission

Mobile-first, cloud-first

Empower every person and every organization on the planet to achieve more

Digital Transformation
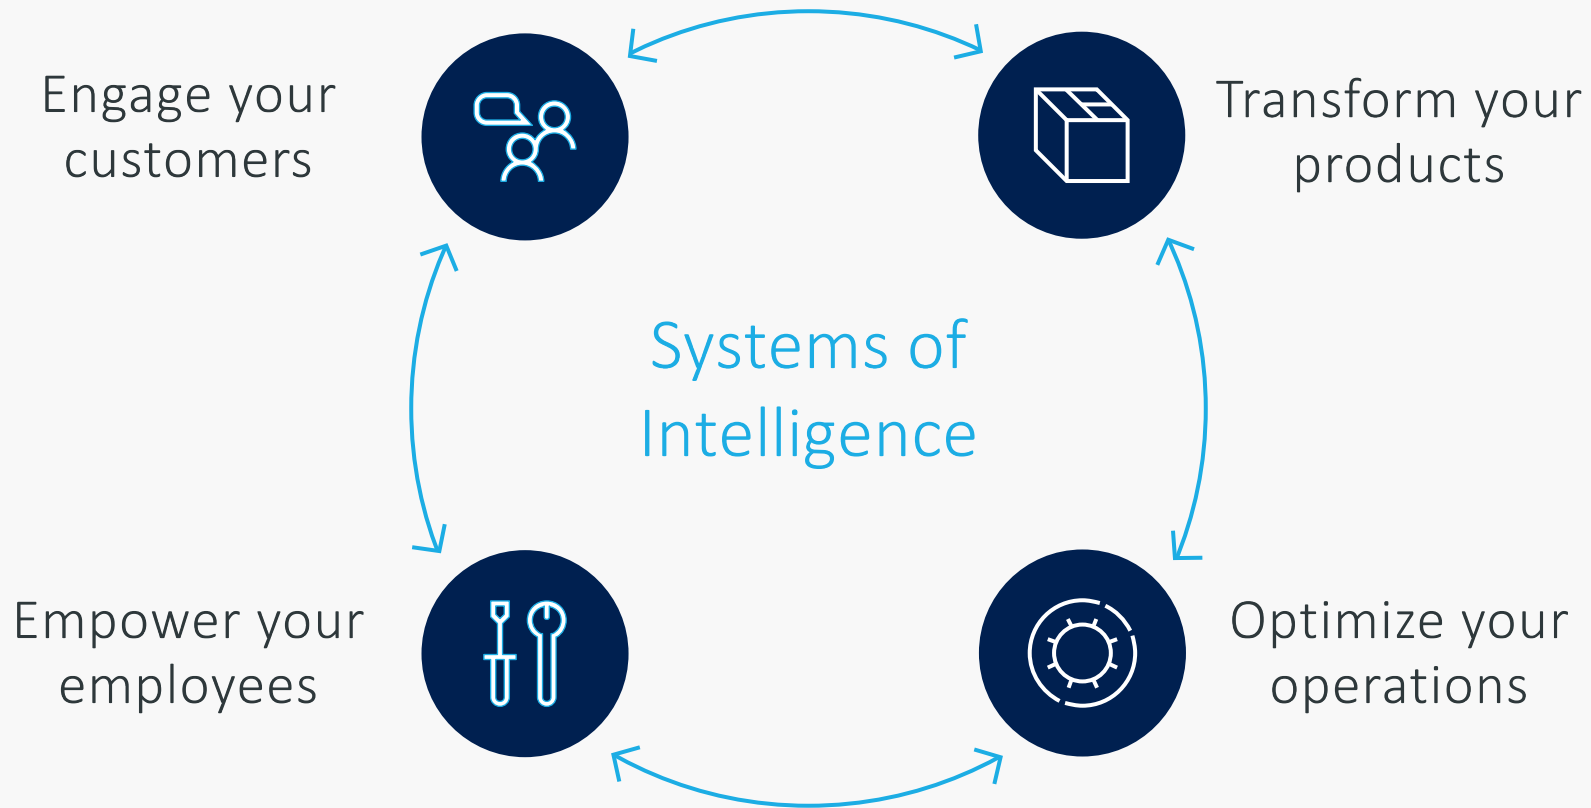

What is it?

Committing $1 billion in Cloud Services for Public Good over the next three years, including serving 70,000 nonprofits with this technology in the same timeframe.
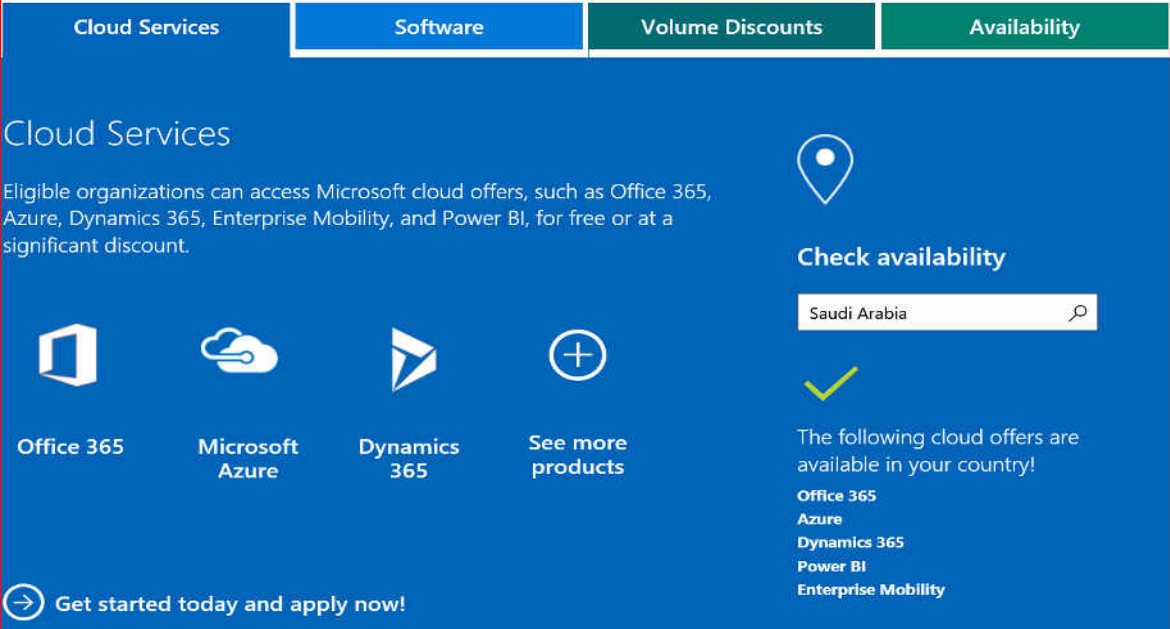

Why we are doing it?

The announcement highlights the company's commitment to making sure the power of cloud computing is used to help tackle the world's biggest societal challenges. Microsoft's commitment focuses on providing additional cloud resources to **eligible** nonprofits, expanding access for university research and helping solve last mile access challenges.

What are the programs?

The cloud services, which will be offered to nonprofits via donations and significant discounts, will include: **Azure, Office 365, Power BI, Dynamics365, and the Enterprise Mobility Suite.**

Key features across all products

- Suite of cloud offerings that work together.
- Special nonprofit pricing; cost effective.
- Improve nonprofit agility and flexibility.
- Easier and faster to deploy.
- Increase nonprofit capacity.
- Better security and reliability.
- Doesn't require internal IT resources to deploy or manage.

1. Microsoft Azure

Azure offers an integrated suite of cloud services – analytics, computing, web and mobile apps, networking, storage, and more – to empower your nonprofit organization to achieve more – more insight, more efficiency and more impact. Azure delivers deeper insights to enhance decision making, supports a broad selection of operating systems, and provides industry-leading security. It also integrates seamlessly with your existing IT infrastructure and scales as your nonprofit grows - giving you the ability to harness the power of Microsoft's data centers for a wide range of capabilities and scenarios.

Microsoft Azure:
What do you get?

$5,000

in credits annually to use towards the complete portfolio of Azure services, including but not limited to:

Microsoft Azure: Services:

Web and mobile apps: Reach your customers everywhere, on every device, with a single mobile app build

Microservice applications: Deliver scalable, reliable applications faster to meet the ever-changing demands of your customers

Development and test: Simplify and speed up the process of building and testing applications across every platform

Big data and analytics: Make the most informed decision possible by analyzing all of the data you need in real time

Storage: Relational or non-relational data storage including blob storage, table storage, queue storage, and files

Disaster recovery: Protect all your major IT systems while ensuring apps work when you need them most.

Predictive maintenance and monitoring with IoT: Predict failures before they happen and monitor devices, assets, and sensors in the cloud

Digital media: Deliver high-quality videos to your stakeholders anywhere, anytime, on any device

Cognitive services: Easily add intelligent services, such as real time language translation in addition to vision, speech, knowledge and search capabilities, to your solutions

Hybrid integration: Seamlessly integrate applications, data, and processes across both on-premises and cloud

Operations management suite: Manage and protect your cloud and on-premises infrastructure

2. Office 365

- Get the latest tech, like real-time tracking and multiple authoring for your board reports

- Impress your most important donors with business class email, virtual meetings and going paperless

- Collaborate with your volunteers with video conferencing, instant messaging, and your own Yammer site

- Access and work on your grant applications anywhere, anytime, with remote file sharing

- Work seamlessly across devices, like iPads and PCs

Whether working in your office or on the go, empower staff and volunteers to succeed with the dynamic set of tools included in Office 365. Provide team members with free email and online document editing and storage. And with video conferencing, instant messaging, and your own Yammer site, you can bring teams together from around the world.

With Office 365, Microsoft takes security and compliance to the next level. Now you have even more control over your data security and compliance with built-in privacy, transparency, and refined user controls. It's easy to see why this is the most secure Office. Ever.

3. Power BI

Power BI transforms your nonprofit's data into rich visuals for you to collect and organize so you can focus on what matters to you. Stay in the know, spot trends as they happen, and push your impact further.

Power BI
What is it?

- **See the full picture in one pane:** Power BI gathers all your on-premises and cloud information in one central location that you can access whenever and wherever.

- **Bring details to life:** Power BI makes you a master storyteller with stunning visualizations and interactive dashboards that offer a consolidated live view of your nonprofit. For the analyst at heart, Power BI Desktop provides a free-form canvas for drag-and-drop data exploration as well as an extensive library of interactive visualizations, simple report creation, and fast publishing to the Power BI service.

- **Transform data into decisions:** Data should empower, not overwhelm. With Power BI, you can easily interact with your data, using simple drag-and-drop gestures to discover trends and natural language queries to get lightning-fast answers.

- **Share a world of insight:** Power BI lets you share dashboards and reports with whoever you want, wherever you go. Always be in the know with the Power BI app for Windows, iOS, and Android. Alerts will inform you about any changes in your data so you can work with your team to take immediate action.

Power BI
What do you get?

Power BI Donation:
- Natural Language Data Exploration
- Import Cloud Services Data
- Import On-Premises Data
- Personal Dashboards and Reports
- Desktop and Mobile Apps
- Publish to Web

- Shared Data Queries
- 10 GB/User Data Capacity
- Consume Live Data Sources
- Create Organizational Content Packs
- Office 365 Group Collaboration
- Active Directory Access Control

4. Enterprise Mobility Suite

Keep your employees and volunteers productive on their favorite apps and devices—and your nonprofit's data protected.

Enterprise Mobility Suite
What is it?

Identity & access management in the cloud: Enterprise-grade identity and access management for nearly any app or device, cloud or on-premises. Delivers single sign-on, multi-factor authentication, self-service passwords, and more.

Simpler management of apps & devices: Cloud-based enterprise mobility management that helps you control employee and volunteer access to your nonprofit's applications and data on virtually any device.

Protect your information wherever it goes: Comprehensive encryption, identity, and authorization policies designed to secure files and email across phones, tablets, and PCs.

Behavioral analysis for advanced threat detection: Sophisticated, automated behavioral analytics that help you identify suspicious activities and advanced threats in near real time, with simple, actionable reporting.

Enterprise Mobility Suite
What do you get?

Enterprise Mobility + Security E3 for Nonprofits:

($1.65* user/month)

- Azure Active Directory Premium P1
